KISHORE KUMAR S

Designer, Analyst, Problem solver.

WORK EXPERIENCE

NielsenIQ, Chennai

Data Analyst — Jun 2024 - Present

Data Integration & Management

- Imported and integrated large CSV datasets into relational databases, optimizing data storage and retrieval for business analysis.
- Developed and executed complex SQL queries to clean and transform raw data, ensuring accuracy and consistency in reporting.
- Reduced data errors by 25%, enhancing predictive accuracy by 35%.

Data Visualization & Reporting

- Created 10+ Power BI dashboards to deliver insights into product performance and operational efficiency.
- Designed a Power BI dashboard to monitor productivity and accuracy for 120 employees, enabling real-time performance tracking.

Automation & Process Optimization

- Automated repetitive tasks using VBA macros, reducing manual workload by 30% and improving operational efficiency.
- Built an interactive data analytics tool using Streamlit in Python to upload, filter, and visualize CSV datasets in real time.

Training & Development

- Trained a team of 5 analysts on advanced Power BI and Excel techniques, improving overall reporting efficiency by 15%.

Mallow Technologies, Karur

Ruby on Rails — Jan 2023 - Mar 2024

- Developed the web app application use MVC model
- Maintain the code use version control git and bit-bucket and test the application
- Create the relationship between the two or more models in SQL

SKILLS

Hard Skills:

- Power Bi
- PySpark
- SQL
- Streamlit (Python)
- Advanced Excel
- Snowflake
- Data automation
- Business Intelligence
- Airflow
- BigQuery

Techniques:

- Requirements Analysis
- Creative Thinking
- Adaptability

Tools:

- Python
- Google Analytics
- RStudio
- Excel

EDUCATION

- B.E. Computer Science Engineering | ESEC, Erode | 2019 - 2023 | (CGPA - 8.56)
- HSC | RKN, Avinashi | 2018 - 2019 | 71%

LANGUAGES KNOWN

- English
- Tamil

CERTIFICATIONS

Microsoft Power BI Data Analyst (PL-300): – Certification for data analytics using Power BI

AWS Cloud Practitioner: – Certification verifying skills in AWS cloud technologies

Data Engineering by IBM: – Course on data engineering principles by IBM

MySQL for Data Analytics and BI by Edureka: – Course on SQL for data analytics and business intelligence

Databricks: Certification verifying skills in ETL technologies

PROJECTS

Sales Performance Analysis Using Power Bi

- It provides a detailed breakdown by category, region, segment, and quarter, helping businesses make data driven decisions.

Finding Fake Transactions Using Semi Supervised Models

- Due to the growth of e-commerce and online transactions, credit card fraud has become the most prevalent problem in the modern world.

Retailer Error Analysis Project

- Led a Pareto analysis using Python and Power BI to identify the 20% of errors causing 80% of operational inefficiencies. Streamlined error-correction processes, improving efficiency by 15%

Sales Forecasting Model Project

- Created a forecasting model using historical data in Python and Excel for a leading retailer, achieving 95% forecast accuracy. The model aided in optimizing inventory and reducing excess stock
